Livingston County to Distribute Free COVID-19 Test Kits and KN95 Masks to Residents

GENESEO, N.Y., December 30, 2021 – The Livingston County Board of Supervisors, Livingston County Department of Emergency Management and local fire departments are partnering to distribute COVID-19 test kits and KN95 masks to residents of Livingston County.

“Our first distribution (on December 30th) was for specific zip codes based on a state-recommended distribution plan to target areas with low vaccination rates,” said David LeFeber, Chairman of the Livingston County Board of Supervisors. “For this next event, we are focusing on a broader, community-wide distribution, utilizing our local fire departments and their volunteers to reach as many of our communities and residents as possible.”

The County will distribute COVID-19 test kits and KN95 masks on a first-come, first-served basis while supplies last. Community members are eligible for one COVID-19 test kit per household member (not to exceed two kits per household). Those looking to pick up test kits and masks must be residents of Livingston County, and bring picture ID with them to the distribution event.

The date, times and location are dependent upon receipt of home testing kits provided by New York State. The County is tentatively planning for a next distribution date of January 8, but this is subject to change. Please check the County [website](#) and social media accounts ([Facebook](#) and [Twitter](#)) next week for up-to-date information.

About Livingston County:

Founded in 1821, Livingston County, N.Y., is comprised of more than 61,000 residents in 17 towns located across 640 square miles of the Finger Lakes region.
