Highway Department Announces Road and Bridge Projects For 2019 Construction Season

Geneseo, NY, May 15, 2019— Livingston County Administration officials today announced the slate of road and bridge construction projects on the docket for 2019.

All projects are funded through the 2019 County Highway Budget, but include a mix of local, state and federal funding. Projects also include a mix of new efforts and continuations of previously-commenced work.

“This construction season the Livingston County Highway Department will once again undertake the important work of repairing our community’s roads and bridges,” said Highway Superintendent Don Higgins. “As construction continues, I call on all pedestrians and drivers to pay attention to road work notices and use caution when moving in a construction zone. I also thank the entire Highway Department for their hard work, and the Board of Supervisors for their continued support and dedication to making sure our County’s roads and bridges are among the best maintained in the state.”

The construction projects will be funded with \$5.6 Million in Livingston County funds, \$1.8 million from the New York State Consolidated Local Street and Highway Improvement Program (CHIPS) and \$750,000 from Pave-NY.

“In Livingston County we continually strive to show taxpayers value for their money,” said Board of Supervisors Chair and Avon Town Supervisor David L. LeFeber. “Nowhere is that more clear than in the dollars used to support the infrastructure projects on the roads and bridges we travel over each day. Investment in infrastructure remains one of our County’s top funding priorities.”

All project schedules are subject to change pending weather, availability of Town Highway assistance, contractor/supplier schedule and emergencies. For more information and for a full list of planned road and bridge construction projects, please visit the County’s website under [“In the News.”](#) If you have any questions, contact Superintendent Don Higgins at 585-243-6700 or Dhiggins@co.livingston.ny.us.

###
